## EDUCATION

Kırklareli University, Turkey

2019- 2023

BSc., **Software Engineering**, GPA: 2.99 / 4.00

i am a newly graduated software engineer. I have previously worked on small and medium-sized android projects. Right now I want to experience teamwork with large-scale projects. While developing professionally, I also want to contribute to the institution where I work.

## EXPERIENCE

**Ankara Karayolları Genel Müdürlüğü, Turkey**

01.08.2022-26.08.2022

Research and summer intern,

During my internship, I took an active role in the beginning of the General Directorate of Highways, Turkey Traffic Application and used the Kotlin programming language. This experience has been an important opportunity for me and I have gained many valuable experiences.

**Ecodation Teknoloji**

14.08.2023-11.09.2023

Research and summer intern,

As a result of the training I received on Cyber Security, I completed my research internship.

## SKILLS

.Net Development, React Native Mobil App Development, Python desktop applications, microsoft,amazon,google web services,mobile application development with Java and kotlin microsoft sql server.

**Language** Turkish – Native.

English- (B1).
